DataMap *Adding Multiple Students to an Intervention*

You can add multiple students to an intervention from the **Students**, **Standards**, and **Data Points** screens.

1 On any of these screens, select the checkbox beside the names of the students whom you want to add to an intervention. To include all students, select the **Name** checkbox.

Note: You can use the search filters on the left of the screen to narrow your results.

2 Click **Add to Intervention**.

The **Add Student Intervention** screen displays.

3 (Optional) On the **General** tab, click **Show** to view the list of the students you selected in step 1.

4 Select a **Program** from the drop-down list.

5 Select a **Tier** from the drop-down list.

Note: If a template is associated with the selected intervention program and tier, the template automatically populates.

6 Select options for **Intervention Provider**, **Referred By**, **Sessions per Week**, and **Minutes per Session** fields.

Note: Fields with an asterisk (*) must be completed and saved before you can edit the template fields.

7 Enter a **Referral Date** and **Start Date** in the fields.

8 Click **Save**.

9 At the bottom of the screen, enter any necessary information in the **Areas of Need**, **Goal**, and **Progress Monitoring** fields.

10 Click **Save**.
