

DataMap *Managing Intervention Programs*

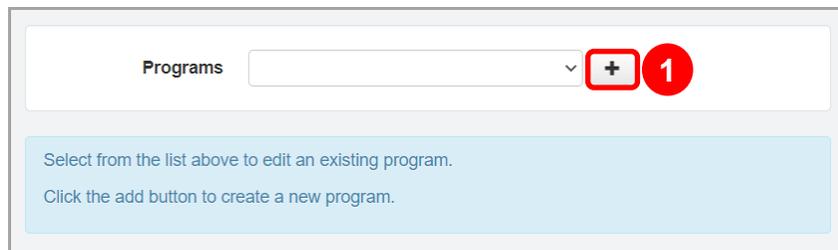

Note: Intervention programs can be added and/or edited only by users who have been assigned the DataMap - Intervention Program Admin role in StudentInformation.

Navigation: DataMap > Admin > Manage Intervention Programs

Adding Intervention Programs

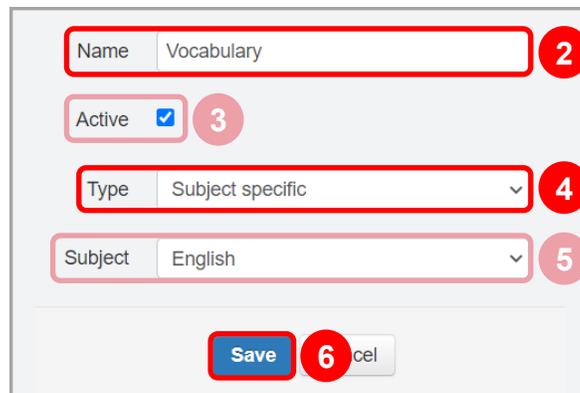

You can add the intervention programs for which you want DataMap to report data. A user can select an intervention program when creating an intervention for a student.

- 1 On the **Manage Intervention Programs** screen, click .

Below the **Programs** drop-down list, the add/edit version of the screen displays.

- 2 In the **Name** field, enter a name for the intervention program (50-character limit).
- 3 (Conditional) If you want this program to be active in DataMap immediately, select the **Active** checkbox.
- 4 In the **Type** drop-down list, select one of the following intervention types:
 - Behavioral
 - Emotional
 - Social program
 - Subject specific
 - Other
- 5 (Conditional) If you selected **Subject specific** for step 4, in the **Subject** drop-down list that displays, select the intervention program's academic subject.
- 6 Click **Save**.

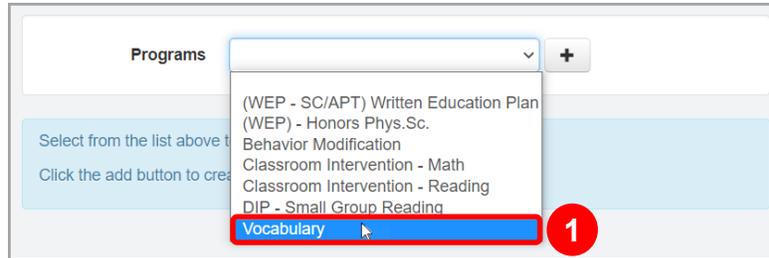

You can now add students to this intervention program.

**see reverse side for more information*

Editing Intervention Programs

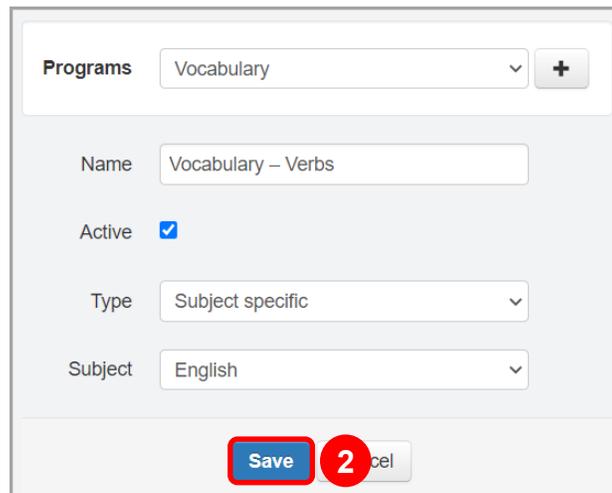

- 1 On the **Manage Intervention Programs** screen, in the **Programs** drop-down list, select the program you want to edit.

A screenshot of a web interface showing a 'Programs' drop-down menu. The menu is open, displaying a list of options: '(WEP - SC/APT) Written Education Plan', '(WEP) - Honors Phys.Sc.', 'Behavior Modification', 'Classroom Intervention - Math', 'Classroom Intervention - Reading', 'DIP - Small Group Reading', and 'Vocabulary'. The 'Vocabulary' option is highlighted with a red box and a red circle containing the number '1'. To the left of the menu, there is a light blue box with the text 'Select from the list above to' and 'Click the add button to create'.

Below the **Programs** drop-down list, the add/edit version of the screen displays.

- 2 Make any necessary changes, and then click **Save**.

A screenshot of a web form for editing an intervention program. The 'Programs' drop-down menu is set to 'Vocabulary'. Below it, the 'Name' field contains 'Vocabulary - Verbs'. The 'Active' checkbox is checked. The 'Type' drop-down menu is set to 'Subject specific'. The 'Subject' drop-down menu is set to 'English'. At the bottom of the form, there are two buttons: 'Save' (highlighted with a red box and a red circle containing the number '2') and 'Cancel'.

Note: If you deselect the **Active** checkbox, the intervention program remains associated with interventions that have been previously created but no longer displays in the **Programs** drop-down list when a new intervention is created.

DataMap updates the intervention program and all existing interventions with your changes.
