

Viewing Student Status Codes

When enabled by your district, you can view student status codes on the **Class Dashboard**, the **Daily Attendance** screen, and the **Period Attendance** screen. These codes are typically used to indicate enrollment status, but in hybrid learning environments, they can be used to indicate whether a student is learning remotely or in person. The codes that display in the **Status** column may differ from those on this instructional sheet depending on your district's standards.

Students (12)	Miss	Att	Status
Anderson, Nicholas			RE
