Include Absences Outside of Admission Dates

- School Absences

- Entering absences prior to the date of the absence, and date changes to a non-attending day
 - Prior to changing a school day to a non-attending date, if a district already had pre-entered absences (examples include field trips, vacations and students on medical leave), you will need to delete the absences prior to changing the day type by navigating to *StudentInformation » SIS » Attendance » Daily Absence List*
- Resolution in the event absences not deleted prior to day type change:
 - The absence will not display on the student's school absence page once the calendar day is changed to a non-attending day
 - Temporarily update the day on the calendar back to a school day, then go to the student's school absences page, and delete the absence, which now appears.
 - Once deleted, change the day back to the non-attending day.

- School Absences
 - When school starts late or dismisses early

The screenshot shows the 'Intervention Team' section of a software interface. It has three tabs: 'Parent Involvement' (selected), 'Judicial Contact', and 'Other Contact'. Under the 'Parent Involvement' tab, there is a section with a plus icon and the text 'Parent Involvement'. Below this, there are two rows of input fields. The first row contains a dropdown menu with 'WILLIE ROWLAND' selected, a date field with '10/15/2017' and a calendar icon, and a 'Comments' text area with a trash icon. To its right is a search input field labeled "Search...". Further right is a text input field labeled "Title". A green button with a plus icon and the text "Add Member" is positioned to the right of the "Title" field. Below these fields is a large, empty text area labeled "Comments".  - Intervention Plans are only reported for students with Habitual Truancy; they are not reported for students with Excessive Absences

- Student Absence Intervention – When a habitually truant student violates the court order
 - These students are to be reported with an FT record that has the Absence Element 'C'. This is the only FT record that is reported multiple times for a student.

• District Responsibilities Checklist

▼ District Responsibilities Checklist

Within 7 days of the triggering absence, the district must do the following:

- Select members of the absence intervention team.
- Make 3 meaningful attempts to secure the student's parent or guardian's participation on the absence intervention.
- Inform parent of their right to appear by designee if the parent responds to the attempts to secure participation but is unable to participate for any reason.
- Parent fails to respond.

School district must carry out the following:

- Investigate whether the failure to respond triggers mandatory reporting to the county's public children services agency.
- Instruct the absence intervention team to develop a plan for the child without the child's parent, guardian, or custodian.

Within 10 days of the triggering absence, the district must do the following:

- Assign the selected absence intervention team to the student.

Within 14 days after the team is assigned, the district must do the following:

- Develop the student's absence intervention plan.

Within 7 days after the plan is developed, the district must do the following:

- Make reasonable efforts to provide written notification to the student's parent or guardian.

If the student does not make progress on the plan within 60 days or continues to be excessively absent, the district must do the following:

- File a complaint in the juvenile court.

- Must the Intervention Plan/Team information be completed in the application when inputting parental involvement?
 - No. The Team Member information is optional. Districts can choose to use it or not. It is designed to assist districts track who is on the team and other pertinent information they may need to assist their students
 - The date the Intervention Plan is implemented needs to be entered at the time of implementation in order that the appropriate FT transfer record can be created

- I entered a written notification for a parent of a student that has not yet met any thresholds. Should this student have an FT record with the Absence Element of 'A'?
 - No. Students must meet either the Excessive Absences or the Habitually Truant thresholds to be included in the FT Transfer.

- If a student meets a threshold, ex. Habitually Truant, and an FT Transfer file with the Absence Element of 'B' is included in the FT transfer files, what happens if this student's absences are updated and the student isn't really habitually truant?
 - At the time the student's absence record is updated and it removes the student from being habitually truant, the FT record is no longer included in the FT transfer file.
 - We are working with ODE to obtain additional information on any impact this could have if a student was previously reported with the FT record and at a later date is not reported with the FT record
