Questions

- On fill-in-the-blank questions, the **Review incorrect answers** checkbox (selected by default) is now available so that you can indicate that you want to review student responses that were marked incorrect during autoscoring. If you deselect this checkbox, student responses marked as incorrect during autoscoring are not presented to you for review afterward. (*ProgressBook VirtualClassroom Teacher Guide*)

***Note:** This enhancement has also been applied to all fill-in-the-blank questions created prior to this release; thus, if you assign existing quizzes containing fill-in-the-blank questions, the **Review incorrect answers** checkbox on these questions is now selected.*

Resolved Issue

Quizzes

- Previously, when you clicked **Source** in the rich-text editor in a quiz description, a question's text, a section's description, or a resource field and then inserted video content by pasting HTML, the video content was removed when you saved the content. Now, video content is retained in these circumstances.
