

TEACHER RELEASE NOTES

ProgressBook Suite v19.1.0

This overview provides explanations of changes available in ProgressBook Suite v19.1.0.

- [GradeBook](#)
- [VirtualClassroom](#)

For more information, refer to ProgressBook WebHelp: <http://webhelp.progressbook.com>

Caution: Always follow your district's guidelines when making changes to your setup.

GradeBook

Enhancement

Google Classroom Sync

Navigation: **Teacher Home Page > Google Classroom Sync**

- You can now import Google Classroom assignments that you assigned to a subset of an entire Google Classroom class roster.

Resolved Issue

Standards-Based Grid

Navigation: **Class Dashboard > Standards-Based Grid**

- Previously, the scroll bar at the bottom of the screen was no longer available when there were too many assessments to display at one time. Now, the scroll bar is available.

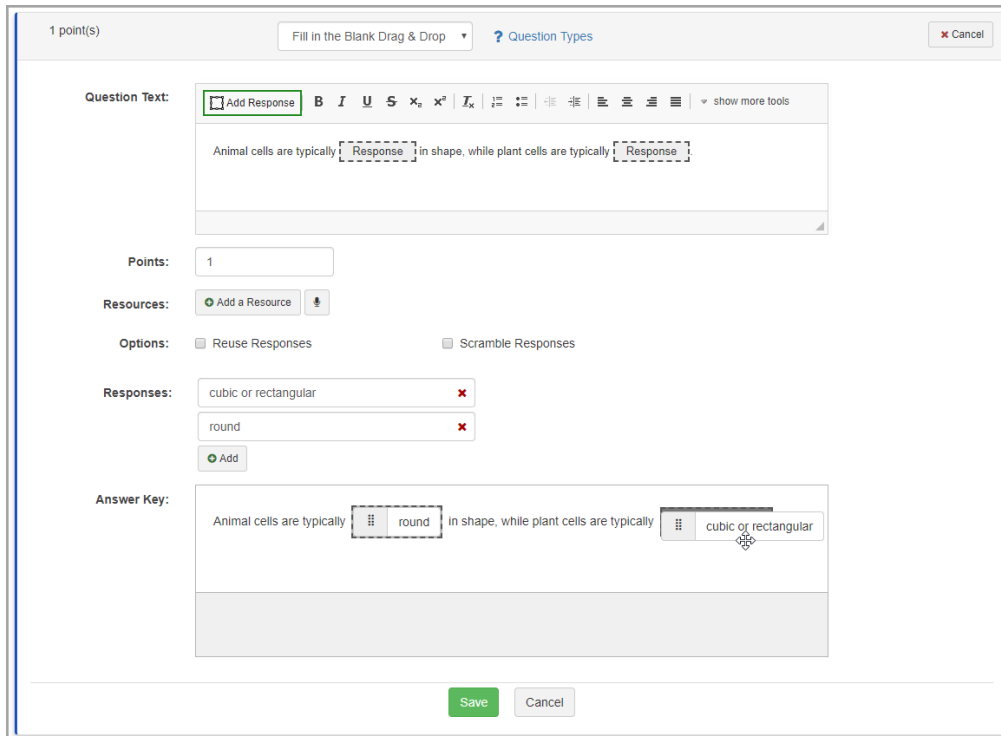

VirtualClassroom

Enhancements

Questions

Navigation: **Dashboard > Content > Quiz Details > Questions** tab

- You can now add a new question type, fill-in-the-blank drag & drop, to quizzes. This question type lets you add text containing blanks to which students can drag possible answers from a bank. You can also scramble responses and let students reuse responses. ([ProgressBook VirtualClassroom Teacher Guide](#))

- When you create a Math Problem question, the MathType tools are now labeled **Math Editor** in the rich text tools. (*ProgressBook VirtualClassroom Teacher Guide*)
