Resolved Issue

Mark Entry screens

5-Day View, Assignment Marks, GradeBook Grid, Standards-Based Grid

- Previously, when you had ad-blocking extensions enabled in your browser, the mark entry screens displayed a “Communication with server failed” message even though your marks were always saved. Now, the “Communication with server failed” message does not display when you have ad-blocking extensions enabled.

The screenshot shows a window titled "Add Initial Screening Measure". It contains two dropdown menus: "Assessment" and "Results". The "Assessment" dropdown is open, and the option "KRA" is selected and highlighted with a red box. Below "KRA", the text "No Date(s)" is visible. The "Results" dropdown shows "No Score(s)". At the bottom right of the window, there are two buttons: "Add" and "Cancel".

- On the **Reading Component** tab, you can now select the same **Target Area** from the drop-down list for multiple reading components.
