## Enhancements

### Filters

- Officially provided reports now have user-friendly filter and sort display names. For example, **StudentDemographic.SchoolYear** now displays as **School Year**. User-made reports can also be updated to include user-friendly filter and sort display names. ([Creating User-Friendly Filter and Sort Names](#))
- Reports with multi-select lists no longer display  in the **Value** column.
- Once you have selected item(s) in a multi-select list, to remove the selection(s), you can now deselect the corresponding checkbox(es) instead of clicking .
- Multi-select lists no longer display  between the top and bottom half of the field.
- After a report has been run, the collapsed post-filter pane icon now displays more prominently in blue on the left of the screen.

### New Reports

- **Attendance** folder
  - (E14176) The new **Student Absence Analysis by Date Range** report, similar to the R309-A and R309-B reports in StudentInformation, generates a list of selected students and displays their total number of absences for the selected date range.
  - (E13978) The new **Student External Absences** report provides a list of external absences for students that attend a school part time, such as JVS students or students who transfer from other schools where complete attendance records may not be available.
  - (E10668) The new **District-Wide Membership in Days** report, similar to the R500 report in StudentInformation, provides a summary of student enrollment and absences in days for the district.
  - (E10668) The new **District-Wide Membership in Hours** report, similar to the R500 report in StudentInformation, provides a summary of student enrollment and absences in hours for the district.

- **EMIS** folder
  - (E13487) The new **EMIS FT Detail** report lets you view all FT records (HB410 events) for students that are reported to EMIS when you run the FT transfer.  
([StudentInformation HB410 District Task List](#))
- **Fees** folder
  - (E12004) The new **Comprehensive Fees Analysis** report, based on the same report in ReportBuilder, is now available. The report provides a list of student fees, both paid and unpaid, for each **Fee Type** within the building.
  - (E3939) The new **Fee Analysis by Fee Code** report lets you view fees filtered by course or general fees and one or more fee codes.
- **Scheduling** folder
  - (E12971) The new **Course Info** report lets you view courses and all related information or only EMIS-related information.
  - The new **Students Without Lunches** report lets you generate a list of students who do not have lunch periods scheduled for the school year selected.
  - (E12576) The new **Tally of Student Course Requests** report, similar to the R402 report in StudentInformation, broken down by grade level, provides a count of the number of students requesting each course.
- **SpecialServices** folder
  - In this new folder, the new **Special Ed Events** report generates a list of special education events per student for the selected **School Year(s)** and **Date Type(s)**.
- **Vendor Extracts** folder
  - The new **Securely Web Filter - Parent and Student Data** report lets districts extract existing student and parent data in StudentInformation to a CSV file to upload to Securely to create parent accounts.
  - The following OneRoster reports are now available so that districts can use them to extract data for applications that use the OneRoster specification:
    - **OneRoster - AcademicSessions**
    - **OneRoster - Class**
    - **OneRoster - Course**
    - **OneRoster - Enrollments**
    - **OneRoster - Org**
    - **OneRoster - Users**

## Report Updates

- In the **EMIS** folder, the **EMIS Admission Calendar Comparison** report now includes the **FD Calendar Bldg** column, which specifies the **Reporting Calendar** selected on each student's FD record.
- In the **Discipline** folder, the **Discipline Detail** report now has improved performance.

## User Interface

- You can now select up to 5 favorite reports. Once you mark at least one report as a favorite, favorited reports display in the **Favorites** folder at the top of the **Analytics Hub** screen and below the **Analytics Hub** link on the Quick Reports drop-down list. ([ProgressBook Student Information Getting Started Guide](#)).

## Resolved Issues

### AbsenceInterventionTeamMembers category

- (D14147) Previously, this category incorrectly duplicated contact records. Now, reports that use this category do not generate duplicate contact records.

### Assessment folder

- (D14072) Previously, the **JVS ACT Pre-ID** report incorrectly displayed the local student ID instead of the gender value. Now, it correctly displays the gender value.

### AttendanceLetter category

- (D13588) Previously, this category incorrectly included a time in addition to the date for the following fields: **CalendarDate**, **ConsecutiveStartDate**, **ConsecutiveEndDate**, and **ThresholdTriggerDate**. Now, these values display only the date. The absence intervention letter on the **Student Absence Intervention** screen is affected by this update.

### DisciplineLetterReport category

- (D13588) Previously, this category incorrectly included a time in addition to the date for the following fields: **StartDate**, **EndDate**, and **ParentInvolvementDate**. Now, these values display only the date. The discipline letter on the **Discipline Incidents** screen is affected by this update.

### EMIS folder

- (D13885) Previously, in the **EMIS Assessment** subfolder, when you ran the **State Assessment Report**, incorrect values displayed for the OCTCA score. Now, the report displays the correct score.
- (D13476) Previously, in the **EMIS Demographics** subfolder, when you ran the **EMIS FS Standing Attendance Detail** report, **0** incorrectly displayed in all rows for the **Other Entity Excused Hours** column. Now, all rows for the **Other Entity Excused Hours** column display the correct data.
- (D13830) Previously, in the **EMIS Demographics** subfolder, the **EMIS FD Detail** report displayed only the first FD record for students. Now, the report displays all FD records for students.

- (D13640) Previously, when you selected filters for the **Gifted Summary** report, the **School Name** drop-down list did not populate. Now, the drop-down list populates correctly. The performance of the report has also been improved.
- (D13525) Previously, when the first day of school on a sub-calendar was a shortened day, the **Sub-Calendar Hours Analysis** report incorrectly displayed the **Calculated Hours** of the first day of school instead of the actual **Hours per Day** listed on the calendar. Now, in these circumstances, the report displays the **Hours per Day** value.

### SpecialEdGradRequirements category

- (D14035) Previously, when you ran reports that used this category, an error occurred. Now, such reports run without error.

### Student folder

- (D513773) Previously, when a student’s primary contact had multiple email addresses, the **Student Immunization Summary** report included the student twice. Now, in these circumstances, the student displays only once in the report.

### StudentCourseInfo\_PreID\_v2 category

- (D13894,13752) Previously, reports that used this category did not populate a list of schools from which the user could select prior to running the report. Now, the following officially provided reports have a populated list of schools:

Folder	Subfolder	Report Name
Assessment	State Assessment Pre-ID	FY19 - Preschool ELA Pre-ID Enrollment File
		FY19 - Preschool ELA Pre-ID Teacher File
Scheduling		Students Without Lunch

### StudentEMISFD category

- (D14063) Previously, this category incorrectly listed the **Primary Building** on each student’s **Edit Student Profile** screen **Additional** tab. Now, this category correctly lists the **Reporting Calendar** of each student’s **Edit Student Profile** screen **FD-Attributes** tab instead. The following officially provided reports are affected by this change:

Folder	Subfolder	Report Name
Assessment	State Assessment Pre-ID	Preschool ELA Pre-ID Export
		FY19 - Preschool ELA Pre-ID Student
Attendance	HB410	Attendance Process Warnings
		Attendance Process Warnings Detail
		Yearly Absence Detail

Vendor Extracts		Clever - Students
YearEnd		Student Promotion Detail

### StudentEMISFS category

- (D13413) Previously, this category incorrectly contained a duplicate **DistrictWithdrawalDate** column named **DistrictWithdrawalDate2**. Now, the category no longer contains the **DistrictWithdrawalDate2** column. The following officially provided reports are affected by this change:

Folder	Subfolder	Report Name	
Assessment	Non-State Pre-ID	SAT Pre-ID File	
Attendance		Daily Period Attendance Detail	
		Daily Period Attendance Summary	
Attendance	HB410	Attendance Process Warnings	
		Attendance Process Warnings Detail

			EMIS FS Standing Attendance Detail
			EMIS FD Detail
			EMIS FN Graduate Detail
			EMIS FS Standing Attendance Detail
Scheduling		5 Credit Rule Check	

<b>Folder</b>	<b>Subfolder</b>	<b>Report Name</b>
Student		SSID Missing Fields
Vendor Extracts		Clever - Students

### **Vendor Extracts folder**

- (D13833) Previously, the **Clever - Students** extract displayed the **IEP\_Status** as **\*\*** or a 2-digit number. Now, the IEP status correctly displays as **Y** or **N**.

## Resolved Issues

### Attendance folder

- (D14638) Previously, in the **HB410** subfolder, the **Daily Absence List Detail** report incorrectly displayed “ERROR: Character ” at column 371 is not closed” in the **Absence** column. Now, the correct values display in the **Absence** column.

### EMIS folder

- (D14539) Previously, the **EMIS FT Detail** report incorrectly displayed data from prior years. Now, the report displays data only for the fiscal year selected.

### Medical folder

- (D13360) Previously, the **Student Immunization Summary** report incorrectly excluded students when they did not have a primary contact. Now, students without a primary contact display correctly.

### Report Filters

- (D14914) After the release of ProgressBook Suite v19.3.0, when no filter value was selected, the reports ran as though all filters were selected instead of allowing a blank value, which affected reports that depended on blank filter values to return the correct data. Now, reports return data with blank values when no filter value is selected.  
*(ProgressBook Reporting Analytics Hub Guide)*

## **Vendor Extracts folder**

- (D14548) Previously, the OneRoster extracts did not fully comply with OneRoster v1.1 specifications. Now, all OneRoster extracts comply with the OneRoster v1.1 specifications, and a new **OneRoster - Manifest** extract is available. ([ProgressBook Reporting Report List](#))

- **Staff** folder
  - (E13815) The new **Staff Detail** report lists all staff for the selected building(s) in a spreadsheet format with their staff code, state staff ID, last 4 digits of SSN, and email address and indicates whether the staff member has any assigned job functions and whether they are active. ([ProgressBook Reporting Report List](#))

## Removed Reports

- In the **Eligibility** folder, the **Grad Point Assessment Remediation** report has been removed and replaced by the **End of Course Graduation Points Remediation** report and the **WorkKeys Assessment Result Detail** report, both of which do not contain an OCTCA section. ([ProgressBook Reporting Report List](#))
- In the **EMIS** folder **Admin** subfolder, the **SSID Search** express report has been removed. The advanced report version of the **SSID Search** report remains available.

## Report Updates

- Reports that do not need timestamps for dates now display only dates.
- (E14601) In the **Assessment** folder, the **ACT Pre-ID** report has been updated to support the new format.
- (E15007) In the **Attendance** folder, the performance of the **Attendance Process Warnings** report has been improved.
- In the **Attendance** folder, the description for the **Monthly Absence Detail with Perfect Attendance** report has been updated. ([ProgressBook Reporting Report List](#))
- In the **Attendance** folder, the **Student External Absences** report now has user-friendly filter and sort names.

- (E14890) In the **Eligibility** folder, the **End of Course Evaluation** report now displays the **Number of Attempts** for the assessment subject area as well as only the highest score of each assessment subject area when multiple attempts occurred. If the highest score is a failed attempt or the student has not attempted an assessment, the assessment row is now highlighted in red. ([ProgressBook Reporting Report List](#))
- (E14441) In the **Scheduling** folder, the **Course Detail** report now includes the **NCAA Course**, **College Credit Hours**, **CCP Location IRN**, and **CCP Location Name** fields.
- In the **Scheduling** folder, the **Tally of Student Course Requests** report now has user-friendly filter and sort names.
- (E14614) In the **Vendor Extract** folder, the performance of the **NWEA Map Extract** report has been improved.

## Report Template Administration

- When uploading a new template, the **Absence Thresholds List By Student** report no longer displays in the drop-down list.
- (E14862) The following new bookmarks provide a total of excused medical absences:
  - YearlyAbsenceMedicalHours
  - YearlyAbsenceMedicalDays
  - MedicalExcusedAbsenceHours
  - MedicalExcusedAbsenceDays
  - MonthlyAbsenceMedicalHours
  - MonthlyAbsenceMedicalDays([ProgressBook StudentInformation Attendance and Calendar Guide](#))
- (E14862) The following bookmarks now exclude excused medical absences from the excused absence totals:
  - YearlyExcusedAbsenceHours
  - YearlyExcusedAbsenceDays
  - ExcusedAbsenceHours
  - ExcusedAbsenceDays
  - MonthlySummaryExcusedAbsenceHours
  - MonthlySummaryExcusedAbsenceDays([ProgressBook StudentInformation Attendance and Calendar Guide](#))

## User Interface

- The descriptions for all reports have been updated to be more user friendly. Descriptions also specify whether the report is in a spreadsheet format. ([ProgressBook Reporting Report List](#))
- Reports with the **Is\_Vendor\_Extract** checkbox selected can now be emailed if a scheduled job has been created for the relevant report.

- The **Analytics Hub** screen now displays  for 30 days beside the corresponding folder, subfolder, and report name in card view to indicate that a new report exists. ([ProgressBook Reporting Analytics Hub Guide](#))
- On the top-right corner of the **Analytics Hub** screen, the new search field lets you narrow down the reports that display in both card and list view. Enter one or more keywords from a report name or description and press ENTER. ([ProgressBook Reporting Analytics Hub Guide](#))
- The **Analytics Hub** screen **Favorites** folder name now displays the number of favorited reports out of the maximum possible, e.g., **Favorites (2/5)**. ([ProgressBook Reporting Analytics Hub Guide](#))
- The **Analytics Hub** screen now hides any remaining  once a 5th favorite report has been selected to indicate that the limit has been reached. Favorited reports still display  beside them, and users can click  to remove the report as a favorite and select a new favorite report. ([ProgressBook Reporting Analytics Hub Guide](#))
- The **Batch Management** window now displays any scheduled report job failures and a message description for why it failed. ([ProgressBook Reporting Report Designer Guide](#))
- A new **District Shared** folder now displays on the **Report Designer** and **Analytics Hub** screens. Users within the district who have been assigned the corresponding security resource for this folder can view and/or update all reports saved to this folder. ## Resolved Issues

### Discipline folder

- (D14499) Previously, the **Discipline Detail** report occasionally duplicated records when a student had multiple incidents and one of the incidents had multiple offenders. Now, in these circumstances, no duplicate records display in the report.

### EMIS folder

- (D15088) Previously, in the **EMIS Calendar** subfolder, the **EMIS Admission Calendar Comparison** report did not highlight the **FD Calendar** and **Admission Calendar** fields in red when the **CalendarCode** and **CalendarBuilding** category fields did not match between the **StudentEmisFD** and **StudentDemographicCore** categories. Now, in these circumstances, the report highlights the discrepancies in red.
- (D14496) Previously, in the **EMIS Calendar** subfolder, the **EMIS Admission Calendar Comparison** report incorrectly displayed a mismatch between the **FD Calendar** and **Admission Calendar** values when there was none. Now, the report correctly displays mismatches only if they occur.

## Eligibility folder

- (D13919) Previously, the **End of Course Evaluation** report occasionally did not highlight the student row when the student had no assessment attempt records. Now, the student row is always highlighted in red when a student has not attempted any assessments. When the student has multiple attempts and the highest score is a failed attempt, the assessment row, instead of the student row, is now highlighted in red. ([ProgressBook Reporting Report List](#))
- (D14283) Previously, the **Grad Point Assessment Remediation** report had the following issues:
  - It excluded any students who did not have an assessment record with a date in the requested year.
  - It included only 1 assessment area in which the student had not achieved a passing score instead of every assessment area the student had not passed.
  - It included the latest attempt score instead of the highest score for each subject area assessment.
  - The OCTCA section was outdated and no longer needed but still displayed.
  - The WorkKeys section was no longer accurate since version 2 was added.Now, the **Grad Point Assessment Remediation** report has been removed and 2 new reports have been created: the **End of Course Graduation Points Remediation** report and the **WorkKeys Assessment Result Detail** report (for more information, see [“New Reports”](#)). ## StudentDemographicCore category

- (D14666) Previously, the **Age** field occasionally calculated incorrectly. Now, the **Age** field calculates student age correctly.

## Vendor Extract folder

- (D15155) Previously, the dates in the **OneRoster - AcademicSessions** extract were incorrectly formatted as MM/DD/YYYY. Now, the extract correctly displays dates as YYYY-MM-DD.
