- **MasterCalendarDetail** category ([Reporting Category Information](#))
 - This category now includes the following fields:

Field Name	Field Type	Field Name	Field Type
Master_PlannedRotationDay	Standard	Master_PlannedRotationDayCde	Standard

New Reports

- **Vendor Extracts** folder
 - The following extracts are now available so that districts can use them to extract data for integration with Frontline Special Programs Management.
 - SPM Course Groups
 - SPM District Calendar
 - SPM Schedule Mapping
 - SPM School Periods
 - SPM Student Schedule
 - SPM Teacher Information
- ([Reporting Report List](#))

Report Updates

- In the **Assessment** folder, the following changes have been made to the **End of Course Grade Substitution File** extract:
 - The school year in context is now the default **School Year** filter value
 - Marks are now filtered by the applicable **School Year** filter value
 - You can now select any applicable **Course Term** for the report
 - End-of-course assessments with an assessment area of PHYS are no longer included in the report
- ([Reporting Report List](#))
- In the **EMIS** folder **EMIS Assessment** subfolder, the **Industry Credential Detail** report now includes a column for **Test Type**. ([Reporting Report List](#))

Resolved Issue

Vendor Extract folder

- (PBSIS-3139) Previously, you were unable to SFTP the **OneRoster - Manifest** extract as the **Is_Vendor_Extract** checkbox was not selected on the **Custom Options** window. Now, the checkbox is selected and you can FTP the extract.

V21.1.0 RELEASE NOTES

Reporting v21.1.0 provides several new features and resolves an issue to improve your experience. This overview explains the recent changes.

Related documentation is available on ProgressBook WebHelp. For more information about an enhancement, see the product guide referenced in parentheses.

<http://webhelp.progressbook.com/Reporting/reporting.htm>

Resolved Issues

Attendance folder

- (PBSIS-5846) Previously, when you ran the **District-Wide Membership in Hours** report, students who were enrolled in 2 buildings within a district were incorrectly included multiple times in the report. Now, in this circumstance, no duplicate data is included.

CourseInfo category

- (PBSIS-6525) Previously, the **EMISStaffProviderIRN** field incorrectly defaulted to *****. Now, it uses the **OtherIRN** field from tblCourse. The following officially provided reports are affected by this change.

Folder	Subfolder	Report Name
Scheduling	N/A	Course Detail

Eligibility folder

- (PBSIS-5848) Previously, the **WorkKeys Assessment Results Detail** report only included students when they were enrolled in the current school year and had results for only the current school year. Now, the report includes students who are enrolled in the current school year and have WorkKeys assessment results for any school year.

EMIS folder

- (PBSIS-5845) Previously, in the **EMIS Assessment** subfolder, the **Industry Credential Detail** report incorrectly listed students multiple times. Now, the **Career Field** has been removed from the report and students are included correctly.

Exago Scheduler Configuration Utility

- (PBSIS-4457) Previously, the configuration utility did not display the server name for the SpecialServices database even though the **Test Connection** button indicated a successful connection. Now, the server name for the SpecialServices database displays correctly.

Report Designer

- In the **Assessment** folder, the following reports are now available:
 - **FY22 - Preschool ELA Pre-ID Enrollment File:**

***Note:** For the FY22 - Preschool ELA Pre-ID Enrollment File report, the first column contains the value of **1elafall21**. Only PS grade level students in the 2021-2022 school year are included on the report.*

- **FY22 - Preschool ELA Pre-ID Student**
- **FY22 - Preschool ELA Pre-ID Teacher File**
- In the **Assessment** folder of the **Analytics Hub**, the following reports in the **Non-State Pre-ID** folder have been updated for the latest version of the file layout:
 - **JVS ACT Pre-ID**
 - **ACT Pre-ID**

SpecialServices folder

- (PBSIS-5876) Previously, the **Special Education Student Verification** report incorrectly included duplicate student records when a student had multiple FD records. Now, only current FD records are included in the report.

StudentCourseRequest category

- (PBSIS-5843) Previously, the **CreditUnits** field incorrectly excluded credit units from courses within course groups. Now, the field includes credits from individual courses as well as from courses in course groups. The following officially provided reports are affected by this change.

Folder	Subfolder	Report Name
Scheduling	N/A	Course Detail

StudentHealthLog category

- (PBSIS-5849) Previously, reports created with the **StudentHealthLog** category only selected the first 100 results, and filter drop-down lists were blank if the first 100 results did not match your selected criteria. Now, all results are returned as expected.

Student folder

- (PBSIS-5875) Previously, when you ran the **Emergency Contact List** report, the contacts displayed in the wrong order. Now, the order of contacts matches the **Contacts Summary** screen.

V21.2.0 RELEASE NOTES

Reporting v21.2.0 resolves an issue to improve your experience. This overview explains the recent changes.

Related documentation is available on ProgressBook WebHelp. For more information about an enhancement, see the product guide referenced in parentheses.

<http://webhelp.progressbook.com/Reporting/reporting.htm>

Resolved Issue

Graduate Reporting Period (G)

- (PBSIS-13751) Previously, in the **Analytics Hub**, the **Period G Core Summary** report was including records from the **Student Non-graduate CORE Summary** screen in addition to records from the **Student Graduate CORE Summary Maintenance** screen. Now, the records from the **Student Non-graduate CORE Summary** screen are not included in the report.

V21.3.0 RELEASE NOTES

Reporting v21.3.0 provides several new features and resolves a few issues to improve your experience. This overview explains the recent changes.

This document contains the following items:

- Enhancements
- Resolved Issue

Related documentation is available on ProgressBook WebHelp.

<http://webhelp.progressbook.com/Reporting/reporting.htm>

Enhancements

Analytics Hub

- In the **Assessment>State Assessment Pre-ID** folder, when the **FY22 - Preschool ELA Pre-ID Enrollment File** report is generated, the first column now contains the token value of '3elaspring22'.
- In the **EMIS>EMIS Assessments** folder, the **PS COS Import Template** report now includes any preschool student with a disability condition on their FD record that is not equal to **.
- In the **EMIS>EMIS Assessments** folder, the **FB Acceleration Detail** report now includes the **Student Number** column.
- In the **Fees** folder, the **Student Fee Invoice** report has been added and will generate a list of student fees for all years.
- (PBSIS-15026) In the **Student** folder, the **Contact List by Student** report is now available and will generate a list of student contacts sorted by homeroom.
- If you do not have any Ad Hoc Report roles assigned to you, you will now see the following message, "You do not have the appropriate roles assigned to your account to access reports in the Analytics Hub. Please speak to your security administrator if you feel this is an error."
- In the **Assessment** folder, the following reports in the **Non-State Pre-ID** folder have been updated for the latest version of the file layout published November 8, 2021:
 - **ACT Pre-ID**
 - **JVS ACT Pre-ID**

Categories

- (PBSIS-15869) When the **DisciplineIncident** category is selected, the **Sorts** and **Filters** tabs now include **IncidentCategory3**.
- (PBSIS-7164) When the **StudentCourseInfo** category is selected, the **MeetingTimeDescription** field is now available for selection.

Resolved Issues

CourseInfo category

- (PBSIS-9179) Previously, when you ran the **Tally of Student Course Requests** report, a **Department** could be listed for a **Course Group**. Now, the **CourseInfo** category will ignore the **Department** if it is for a **Course Group**.

StudentHealthLog category

- (PBSIS-11119) Previously, in the **StudentHealthLog** category, if a report was created with a filter for **ReasonForVisit**, an error was displayed when the report was generated. Now, this has been corrected.
